github.com/ahmedA-gif ○

Driven and detail-oriented AI undergraduate with a strong foundation in Python, machine learning, and data science. Experienced in building and training models, developing Python-based web applications, and applying data-driven solutions to real-world problems through academic and self-initiated projects. Seeking an internship to further enhance my skills, contribute to impactful projects, and grow under the mentorship of industry professionals.

EDUCATION

Bachelor Of Science In Artificial Intelligence
University Of Central Punjab

10/2023 - Present — *Lahore, Pakistan*

FSC Pre-engineering
PGC

08/2021 - 08/2023 — *Lahore,Pakistan*

WORK EXPERIENCE

Python/AI/ML intern
DevelopersHub.co

04/2025 - 05/2025

Achievements/Tasks

- Collaborated with the AI team on developing and testing machine learning models for [insert task, e.g., sentiment analysis, image classification, predictive analytics].
- Preprocessed datasets using Pandas, NumPy, and NLTK, including cleaning, normalization, and feature engineering.
- Contributed to code documentation and version control using **Git** and **GitHub**, ensuring collaborative development and reproducibility.

Data Science Intern (Virtual Experience Program)
British Airways – Forage

03/2025 - 04/2025

Achievements/Tasks

- Analyzed operational data to identify trends in **flight delays and cancellations**, simulating real-world problem-solving as part of the British Airways data team.
- Utilized **Python, Pandas, and data visualization tools** (e.g., Matplotlib, Seaborn) scraping and convert to csv and training and testing to clean, explore, and interpret aviation datasets.
- Delivered insights through a concise, data-driven report to support decision-making in flight scheduling and customer experience strategy.

SKILLS

Python   C++   MySQL   Python automation

Data Science   Machine Learning   Flask

Problem Solving   Data Visualization

Performance Tuning   Exploratory Data Analysis

PERSONAL PROJECTS

TRUE AND FALSE NEWS PREDICTION (FLASK) (04/2025 - 05/2025)
- Which can predict that article is false or True (preidction level) bsed on upto 3 models.

HOTEL MANAGEMENT SYSTEM (WITH MYSQL), (STREAMLIT) (04/2025 - 05/2025)
- Integrate with Mysql and python to user input using streamlit and fetch data

FULL STACK FINANCE TRACKER (STREAMLIT) (04/2025 - 05/2025)
- Full stack with visualized data to check varaitions with exceptional well handled .

Multi-Label-Emotion-Detection (04/2025 - 05/2025)
- Accurately handle different type of emotions using messages.

Alibaba web scraping (07/2025 - 08/2025)
- automatically fetch data and convert into csv

CERTIFICATES

Machine Learning with Python (IBM) (08/2025 - Present)

British Airways Data Scientist (04/2025 - Present)
